Home Security Improvements

“If your home has been targeted by criminals, you could benefit from improved security at no cost to yourself or your family. Our Burglary Reduction Officer will carry out a free risk assessment and if necessary, will arrange security upgrades to reduce the risk of you being targeted again.”

Caroline Henry

Nottinghamshire Police and Crime Commissioner

Do I qualify for a risk assessment? Yes, if you live in the Lenton Triangle or parts of the Arboretum area, and have been a burglary victim or could potentially be at risk.

Will it cost me anything? No. These services are free of charge thanks to the Safer Streets Partnership. However, if you are eligible for Wi-Fi/4G CCTV or video doorbells, there will be a small monthly subscription charge (£4pm to cover 4G data usage on 4G CCTV or £2.50pm for doorbell video history/saving)

What happens after the assessment? We will carry out the necessary security upgrades to your property.

What do I get? Depending on the findings of the risk assessment, your home could be fitted with security improvements including upgraded window and door locks, external security lighting and window alarms, Wi-Fi/4G CCTV and video doorbells, and repairs to doors, windows and fencing/gates if this would help to improve overall security.

Making Nottingham Safer

We are working hard to make your city safer. Thanks to a £432k grant from the Home Office's Safer Streets Fund, we are investing in security upgrades and extra policing to reduce the fear of crime where you live and prevent you from falling victim to criminals.

The Safer Streets Partnership will deliver the following and much more:

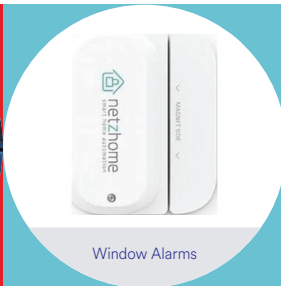

- Free security upgrades at up to 500 residential properties in the area including previous burglary victims and neighbouring properties.
- Free Ring doorbell devices to up to 375 vulnerable properties in the Arboretum and Lenton Triangle areas.
- Installation of CCTV camera in Bridlington Park which will be live-monitored at the City's CCTV control room.
- Extra policing hours to keep residents safe and target persistent offenders.
- A dedicated Burglary Reduction Officer to liaise with burglary victims/neighbours to undertake risk assessments.
- Enhanced community engagement through Nottinghamshire Alert and the recruitment of Community Champions.
